Filmtheater mit Philips-Universalprojektoren DP 70 in den USA und in Kanada

Als Fortsetzung unserer Liste über Kinoinstallationen mit dem bewährten Universalprojektor Philips DP 70 für Normal- und Breitfilm-Vorführung geben wir hier eine Liste von Installationen in den USA und in Kanada. Da wir uns dabei naturgemäß auf die Angabe derjenigen Theater beschränken, die uns bisher namentlich bekannt geworden sind, kann diese Liste nicht ganz vollständig sein. Selbst wenn man berücksichtigt, daß manche der amerikanischen

Theater entsprechend der dortigen Gepflogenheit drei Projektoren nebeneinander aufstellen, besagt die Anzahl der nach den USA gelieferten Projektoren, daß noch etliche weitere Installationen mit DP 70 bestehen. Wie aus dieser umfangreichen Liste hervorgeht, gilt auch für diese Länder die Tatsache, daß weitaus die meisten für Todd-AO-Filme eingerichteten Theater den Philips-Universalprojektor DP 70 verwenden.
